

How to Find Your Perfect Size:

- 1 Print out this chart.
- 2 Take off your shoes and socks, then stand up.
- 3 While standing up, place your heel where indicated on the chart.
- 4 If your foot falls on or past the grey lines, you need a wide width shoe.

REGULAR

This is a standard B fit. Designed with regular room across the footbed, ball of the foot, and the instep.

WIDE WIDTH

Designed with extra room across the footbed, ball of the foot and instep. This is a D fit with about an extra 0.5" in the footbed compared to Regular Fit.

 Print this page on 8.5" x 11"
 paper at 100% full size
 (do not shrink, scale or fit)

 Then, place a credit card here
 to make sure it fits in the space
 for the most accurate foot
 measurement.

You are wide width if your foot touches this line.
